

# Try New DrainFoam™ and Receive a Free Foamer or Cash Rebate!

Restaurants and other food service facilities often experience sanitation problems associated with the buildup of kitchen grease (organic waste) in drains, cracks and crevices, and under heavy equipment. These problems include fruit and drain fly infestations, foul odors, and clogged (slow) drains. When these problems exist, foaming a biological cleaner is often the most effective treatment method.

**DrainFoam's™** ready-to-use foaming formula produces a thick foam that will clean the toughest drains, hard-to-access corners, and cracks and crevices. **DrainFoam™** contains the same proprietary blend of bioenzymatic actives found in **DrainGel™**, the pest management industry's standard for biological drain cleaners.

**DrainFoam™** can increase profits from your commercial accounts! Using **DrainFoam™**, many PCP's are offering "clean drain service" as a profitable add-on service. **DrainFoam™** is more economical and easier to use than other foaming products, and a "must" for your commercial account sanitation program.

For more information on **DrainFoam™** and a directory of distributors that offer American Bio-Systems' products, please visit our website at [www.bio-systems.com](http://www.bio-systems.com).

To introduce **DrainFoam™**, American Bio-Systems is making a special offer: Purchase 1 gallon of **DrainFoam™** from your local distributor and receive a \$25 cash rebate or a professional quality Variable Control Foamer! See coupon details below.

## \$25 Rebate or Free Foamer

Receive a \$25 Cash Rebate or a free Variable Control Foaming Sprayer (limited quantities available) with the purchase of 1 gallon of **DrainFoam™**. Fax or mail this coupon with your proof of purchase (dated receipt) and the Rebate or Foamer will be mailed directly to you. Purchase must be made after March 1, 2008, and before August 31, 2008. Coupons must be received no later than September 15, 2008. This offer is limited to one redemption per company branch. Coupon cash redemption value: 1/100th of 1 cent.
